5.1	Lenzie Street Design project	
	The feedback from the last of the public consultations in July had not yet been analysed and reported, due to annual leave and similar factors. An investigation of on-street parking in streets near the Station has been commissioned and this is due for reporting in November. A resident survey and consultation is planned. Cllr Ackland noted that fewer streets on the north side of the railway had been included in the list of streets. (Post meeting note: The Convener and Secretary studied the list of streets after the meeting and have notified EDC Officers that there is a mistake in the designation of two streets on the south side of the railway and also recommended that certain streets be added to the list on the north side. See Addendum) Cllr Ackland also noted that a report was being made to the EDC Place, Neighbourhood and Corporate Assets Committee, on the same evening as the LCC meeting. Cllr Thornton later noted that there had been an amendment to the recommendation in this report, the effect being to delay proceeding to detail design until the results of the professional investigation and the survey/consultation would be available.

7.0	PLANNING	
7.1	Weekly list – A list of current applications had been circulated and it was agreed that none of these were of special interest to the Community Council. Comments on the South Claddens proposal had been submitted as agreed, but this case has not yet come to the Planning Board.	
8.0	WALK/CYCLE ROUTE TO BISHOPBRIGGS VIA LENZIE MOSS	
8.1	Friends of Lenzie Moss had been in discussion with EDC concerning survey work commissioned to investigate the feasibility of a cycle route on the north side of the railway to Crosshill Road. This would link with another path to Bishopbriggs. The present path along the north side is used by cyclists at present but is considered to be unsuitable for various reasons. It was agreed to keep this proposal under review.	CM
